| | | | | | |
| | | | | | - |

Step 2

- Press "Connect".
- Press "Join" as your phone wants to join device's WiFi hotspot named XPG-GAgent-xxxx;
- Press "Join" as your phone needs to go back to your original WiFi network. The connection process is automatically completed. Now your thermostat is accessible via the app.

. If no known

Troubleshooting

Some phones might not be able to join device's WiFi hotspot automatically. In this case, please do it manually. Follow the steps below:

- In Step 2, before pressing "Connect", please go to your phone's Settings - WLAN.
- Connect your phone to device's WiFi hotspot named XPG-GAgent-xxxx;

Once connected to XPG-GAgent-xxxx, return back to the thermostat app and follow Step 2 above.
